INSTRUCTIONS

(See Manual of Rules and Regulations)

This form shall be made out in duplicate and shall be accompanied by a filing map showing the present and proposed points of diversion and other pertinent data. A filing fee of \$5.00 shall accompany this application.

If application is made to change point of diversion of water claimed under a water right established prior to March 19, 1907, a declaration of such old right substantiated by sworn affidavits together with a filing map must accompany this application or have been already filed in this office, fully setting forth the right claimed (see Declaration of Old Right in Manual). A right established by license or permit from the State Engineer shall be referred to fully in making application to change.

The filing map accompanying this application shall be prepared by a qualified registered professional engineer or land surveyor and shall show existing point of diversion and other works and lands irrigated as well as the new point of diversion. All pertinent dimensions and details of the proposed diversion structure, together with size and alignment of the canal and field notes thereon from the new point of diversion to the point where the new work meets the existing canal, shall also be given. Ownership of the lands upon which the point of diversion and any other proposed new works lie shall be shown. If applicant is not original owner of water right, a Change of Ownership affidavit together with a filing fee of \$1.00 must accompany this application.

The first line of this form is for the State Engineer. Do not fill in this line or any of part (C) following. The first part of the form, (A), is to set forth the essential features of the existing water right; the second part, (B), describes the changes requested; and the third, (C), gives the approval or disapproval of the State Engineer, the conditions under which such approval is granted, and establishes the limiting dates for completing such changes.

It is a misdemeanor to use more water after the change than the owner has a valid right to use before the change was made.
